19. Favorable and unfavorable foods according to various disorders & importance of foods in yogic practices
20. Types of honey and medicinal uses, including various dietary forms, including recipes

Ayurveda, the science of life, focuses on various modalities of health and wellness through **proper diet, digestion and nutrition**. The key to understanding food and nutrition for various body constitutions (*prakriti*) is an integral aspect of Ayurvedic cooking and eating. The father of modern medicine, Hippocrates, rightly said: "**Let food be thy medicine and medicine be thy food**".

Ayurvedic nutrition includes the following principles -

- Incorporating six tastes in each meal;
- Compatible and incompatible food combinations;
- Utilizing various spices and condiments to bring forth the healing qualities within foods;
- Consideration of diurnal and seasonal changes;
- How to eat, cook, digest, assimilate, absorb and metabolize meals.
- Preparing foods according to individual constitution
- Addressing various digestive imbalances - gluten, lactose intolerance, etc.

Association of Ayurvedic Professionals of North America, Inc. U.S.A.

Ayurvedic Food and Nutrition Consultant (A.F.N.C.) Curriculum

Prospective AFNC students will benefit from the course by asking themselves the following questions before the course begins:

- What time do you eat your meals?
- How many meals do you have per day?
- How do you feel after eating?
- How are your energy levels after you eat, throughout the day?
- What kind of food do you like?
- Do spices foods make you irritated?
- Do you like desserts / and or sweets?
- How many times per day / week do you eat fruit?
- How many times per day / week do you eat vegetables?
- How many packaged, processed, canned and frozen foods do you eat?
- Do you use spices in your cooking? Specify...
- What kind of environment do you eat in?
- Do you go to sleep right after eating?
- How often do you eat at a restaurant or get take out per week?
- How often do you cook your own foods?
- Do you eat organic foods?
- Do you enjoy cooking?

Hands-on Teaching / Cooking Demonstration

AFNC students will delve into the Ayurvedic principles of food and nutrition through lectures, interactive demonstrations, and hands-on sattvic, vegetarian cooking experiences. During the first 4-day session, 2 days each will be dedicated to learning the principles and techniques for creating dishes focused on balancing vata and pitta. During the second 4-day session, 2 days will be dedicated to the same for kapha dosha. On the final 2 days, students will work in teams or groups to create one complete meal and record instructor's and classmates' feedback.

Part I: Cooking Practicum

During each 4-day session, students can expect to learn how, when and why to prepare the following:

- Refreshing breakfasts to start a healthy day
- Appealing appetizers to stimulate digestion
- Healing, aromatic teas and other soothing beverages
- Tempting and tasty salads and dressings

Association of Ayurvedic Professionals of North America, Inc. U.S.A.

Ayurvedic Food and Nutrition Consultant (A.F.N.C.) Curriculum

- Delectable, tangy chutneys to enliven meals
- Flavorful, crispy fritters and other accompaniments
- Yeast-free flat breads
- Sweet and savory, soul-comforting soups
- Cleansing khichidi
- Palate-pleasing protein recipes to build and strengthen muscles
- Dals, sambars and tofu dishes
- Gratifying grain dishes
- Vitality-imparting vegetable dishes
- Simple, light, complete meals to pack for travel
- The “Spices of Life” – Churnas and masalas for taste and balance
- Delicious, naturally-sweetened desserts and Prasads

Part II: Lectures & Demonstrations

Interspersed with the practicum of cooking, students will listen to and watch lectures and demonstrations correlated to the dishes they are learning to prepare. Provide discourse and demonstrations in the following content areas:

Vata Dosha:

- Prana Vata locations, balanced, imbalanced symptoms, and disorders
- Udana Vata locations, balanced, imbalanced symptoms, and disorders
- Samana Vata locations, balanced, imbalanced symptoms, and disorders
- Apana Vata locations, balanced, imbalanced symptoms, and disorders
- Vyana Vata locations, balanced, imbalanced symptoms, and disorders
- Effect of Vata on Dhatu and their disorders
- Effect of Vata on Srotas and their disorders
- Effect of Vata on Malas and their disorders
- Effect of Vata on various manas (psychological) disorders

Pitta Dosha:

- Pachaka Pitta locations, balanced, imbalanced symptoms, and disorders
- Ranjaka Pitta locations, balanced, imbalanced symptoms, and disorders
- Sadhaka Pitta locations, balanced, imbalanced symptoms, and disorders
- Alochaka Pitta locations, balanced, imbalanced symptoms, and disorders
- Bhrajaka Pitta locations, balanced, imbalanced symptoms, and disorders
- Effect of Pitta on Dhatu and their disorders
- Effect of Pitta on Srotas and their disorders

Association of Ayurvedic Professionals of North America, Inc. U.S.A.

Ayurvedic Food and Nutrition Consultant (A.F.N.C.) Curriculum

- Effect of Pitta on Malas and their disorders
- Effect of Pitta on various manas (psychological) disorders
